

THE NEW

iX M60

There's a bond between the road, the vehicle and the driver.
The promise of an unrivalled experience of performance.
Transforming taste into a statement. Unique. Outstanding. Real.

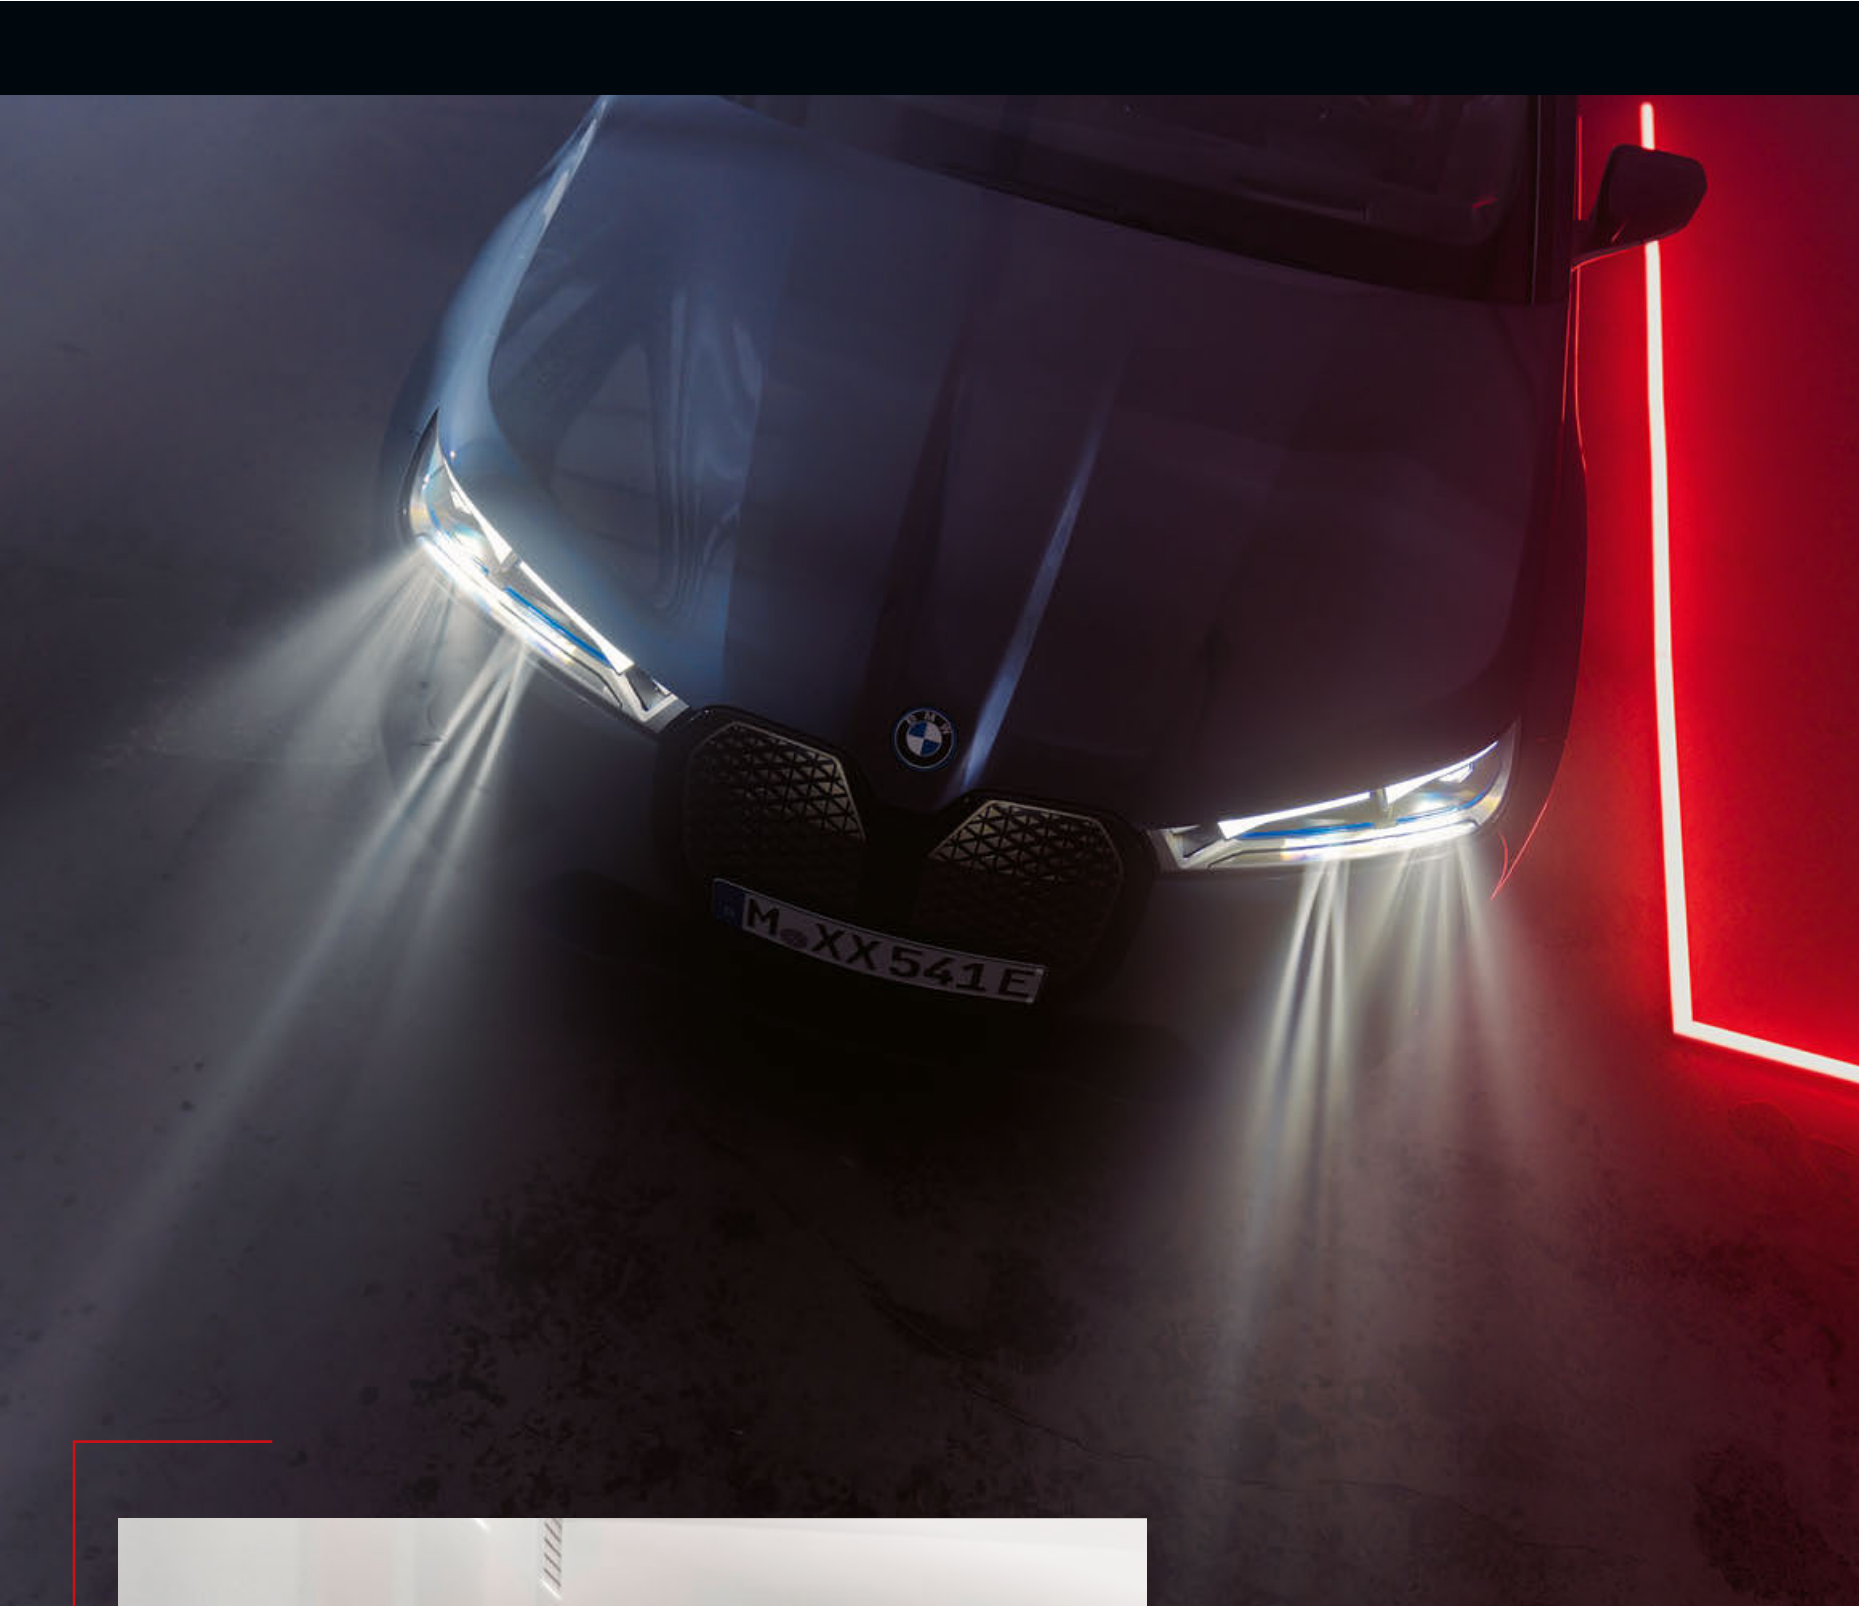

Born on the racetrack and driven by the uncompromising will to win.
Fuelled by the art of engineering and electrified by the future.
Sustained by expressive style and rewarding luxury. Power, pushed to the limit
and controlled to the max. It is the ultimate homage to the driver.

This is the peak of driving. This is a bold statement of sovereignty.
This is a celebration of taste. This is driver and machine as one.

This is BMW M.
The most powerful letter in the world.
The ultimate BMW.

BMW iX M60:

22" M light alloy wheels 1023 Bicolour Titanium Bronze with 3D gloss finish, exterior colour in BMW Individual Storm Bay metallic, multifunction seats in natural leather in the interior design Suite Amido.

Power consumption in kWh/100 km (combined): 24.7 – 21.7¹

CO₂ emissions (combined): 0

Electric range in km: 499 – 566¹

¹ Forecast value based on the previous development status of the vehicle.

Official data for power consumption and electric range was determined in accordance with the prescribed measuring procedure and corresponds to European Regulation (EU) 715/2007 in the applicable version. In the event of ranges, data determined as per WLTP takes into account any optional equipment (available on the German market in this case). For vehicles that have been newly type approved since 1 January 2021, only the official data according to WLTP exist. For more information about NEDC and WLTP measuring procedures visit www.bmw.com/wltp

The models illustrated in this medium show the equipment and configuration options (standard and optional) for vehicles produced by BMW AG for the German market. Alterations in standard and optional equipment and the configurations available for the different models may occur after 12/21/2021, the editorial deadline for this medium, or according to the specific requirements of other member states of the European Union. Your local BMW Partner is available to provide further details. Subject to change in design and equipment.

Of course, each vehicle is designed for economical recycling after its long-running life. You can find more information on recycling your end-of-life vehicle on our website www.bmw.de/recycling
